

Solución Líquida - 7388 - Liqui Moly Pro-Line Lubricante spray adherente 400 ml

Spray Liqui Moly para la lubricación preventiva a intervalos de piezas del sector del automóvil.

Liqui moly para la lubricación preventiva a intervalos de piezas del sector del automóvil y de la industria, como bisagras, articulaciones, varillajes, palancas de inversión, husillos, guías, rieles de deslizamiento, bulones de puerta, cojinetes y cables con resorte.

Lubricante compuesto sintético de alta calidad, termoestable y extremadamente adherente y resistente al centrifugado. Una vez se ha evaporado el disolvente, queda una película lubricante con gran capacidad de adherencia. Gracias a una fórmula especial, garantiza una excelente protección anticorrosión y una extraordinaria hermetización. Ofrece una protección óptima para todos los componentes incluso en condiciones extremas gracias a la elevada capacidad de absorción de presión y su efecto de larga duración.
